The Senator from Clearfield (Mr. Waline) cliss us that the object of the President, in this force the attempt to take procassion of the War Office, was to bring the Tenure of Office law before the courts for adjudication

This counds very well. But when we take into consideration the fact that our courts are always open and accessible to all, and the writ of quo warranto may be at any time served upon any member of the Cabinet, and that such a proceeding against Mr. Stanton could not have inside to bring the whole matter before the courts, where it would be properly adjudicated without a recent to force or a violation of law, this attempted appology for this high handed act fails to the ground.
